Nourstrom · Factory-Direct Line

## Manhattan Walnut · LPSW1161

Wood-grain WPC panel · Selected series

Nourstrom · Factory-Direct Line

Representative partner products - final specification per project quotation. Project pricing on quotation.

# Plant modernization for partners

---

Nourstrom does not sell off-the-shelf robots. Our automation work is a service to our manufacturing partners: we study their production lines and bring robotics upgrades that raise output, quality, and safety - the same factories that build the products in this catalog.

## What we do for partner factories

- **Line audits** walk the floor, find the bottlenecks - handling, palletizing, finishing.
- **Robotics integration** collaborative and industrial robots fitted to existing lines.
- **Process automation** material flow, quality inspection, and packaging upgrades.
- **Training & handover** operator training and maintenance playbooks so gains stick.

*Automation engagements are scoped per factory after a site assessment. Ask us how modernization could strengthen your supply program.*

# Upload. Source. Deliver.

---

Send your drawings, room counts, or site plans —  
we return an optimized product proposal and contract pricing.
